CERTIFIED MAIL

Mr. W. P. Thomas, Vice President
of Operations
Energy Cooperative, Inc.
3500 Indianapolis Boulevard
East Chicago, Indiana 46312

Dear Mr. Thomas:

Re: Activated Biological Sludge

You are hereby notified that approval is granted for the disposal of the above-referenced sludge at the Gary Land Development Landfill, 45-2, Lake County.

It is understood that this waste is commonly disposed of through incineration, therefore landfilling should be used only during those times that the incinerator is inoperable. This material must be dewatered and in a solid form before it is hauled to, and disposed of, at the landfill. This dewatered waste is to be mixed with the general refuse and covered at the end of the working day.

An analysis of this sludge is on file in the Solid Waste Management Section office. If you have any further questions please contact Mr. Bruce Palin of the Solid Waste Management Section at AC 317/633-6400.

Very truly yours,

Roland P. Dove, Director
Division of Sanitary Engineering
